

Matthew Chellemi

Chellemi Stormwater Compliance

CAPABILITY STATEMENT

COMPANY PROFILE

Chellemi Stormwater Compliance is an independent San Luis Obispo firm providing NPDES compliance and QSD/QSP stormwater inspection support for linear utility and construction projects under California's 2022 Construction General Permit. Led by Matthew Chellemi, a CASQA-certified QSD/QSP with over 10 years in Clean Water Act compliance and recent Senior Scientist experience on PG&E's Wildfire Mitigation Plan, the firm is available now through the October–April wet season.

SERVICES

- Weekly, monthly, and twice-annual site inspections
- Pre-, during-, and post-QPE inspections
- BMP inspections, maintenance recommendations, and corrective action documentation
- Stormwater discharge and non-visible pollutant sampling
- LCANs, NOIs, COIs, NOTs, and monitoring and annual reports
- Inspection logs and photo documentation, submitted in Salesforce within 24 hours
- Kickoff and site-specific training for delegated inspectors and crews
- Short-notice surge coverage when storms outpace in-house staff

PAST PERFORMANCE

PG&E Wildfire Mitigation Plan (2025–2026): Senior Scientist (Regions 2 and 5S), Contractor via Verdantas. QSD/QSP site inspections, water quality monitoring, kickoff training events, site-specific training for delegated inspectors and construction crews, and full CGP reporting for linear underground and overhead utility projects.

Joint Base Pearl Harbor-Hickam (2023–2025): Ensured base-wide compliance with the NPDES MS4 Permit. Managed the Construction Site Runoff Control Program for all federal construction projects.

NPDES Permit Compliance Support (2016–2023): Prepared SWPPPs, Notices of Intent, No Exposure Certifications, Notices of Termination, and other compliance submittals required for construction sites, industrial facilities, and military installations.
